TeleMax™

Product Information

Telemax™ is a phytotherapeutic formulation combining extracts of *Astragalus membranaceus* and *Salix alba*, produced using advanced laboratory extraction apparatus and proprietary production protocols. This formulation brings together a synergistic blend of historically valued botanicals, each selected for its documented role in traditional herbal practice supporting cellular vitality, immune resilience, and overall well-being.

Astragalus membranaceus (Astragalus) A foundational herb in Traditional Chinese Medicine with thousands of years of documented use, astragalus has been historically prepared as a tonic to support vitality and resilience. Researchers have investigated flavonoid and polysaccharide constituents found in *Astragalus membranaceus* for their interactions with immune signaling and cellular regulatory pathways, and botanical literature has explored how these compounds may influence processes related to immune balance and cellular function.

Salix alba (White Willow Bark) Documented across European, Middle Eastern, and Asian herbal traditions for centuries, white willow bark has been historically prepared as a botanical tonic to support comfort and overall vitality. Researchers have investigated salicin and related polyphenolic constituents found in *Salix alba* for their interactions with oxidative stress and cellular signaling pathways, and botanical literature has explored how these compounds may influence processes related to cellular resilience and longevity research models.

- **Highly bio-available due to heat and hydro-alcohol reflux extraction**
 - **Organic, Non-GMO, Gluten free**
- **Extracted with Maui-grown organic sugarcane alcohol** and deep ocean mineral water
